

Society of Biomolecular Imaging and Informatics

6th Annual “High Content” Conference

Poster Presentation and Display Guidelines:

Setup: Posters can be hung with push-pins (available at the registration desk or at poster boards) for display any time after 12 noon on Tuesday, September 17th and no later than noon on Wednesday, September 18th to be considered eligible for awards.

Dimensions: The display boards are 4' x 8'; therefore, we recommend posters with sizes not greater than a width of 91" (231.1 cm) and height of 45" (114.3 cm). To establish a visual balance please consider using 50% or more of the poster board area.

Display Font Recommendations: Title: should be $\frac{3}{4}$ -1" (> 72-point font) in bold; include all authors and affiliations in the title banner.

The body of the poster should use “Sans Serif” font with a minimum size of 24 point. All text, figures, graphs, and images should be readable from a distance of at least 4 feet.

Poster Content Recommendations:

Aim for clarity and readability with concise introduction statement, objectives, goals, and background of the research work; include design / methods, results with graphs, figures, and pictures to illustrate the findings; and provide clearly stated conclusions and future directions. Limit the number of references and include any conflict of interest disclosures statements.

Please note: Poster presentations are strictly scientific in nature and may not be displayed to sell or market items at the conference.

Posters will be numbered according to the conference scientific program; please place your poster as assigned.
